Maple Grove Dental Clinic

Patient information and frequently asked questions

Sample clinic document for the knowledge base. Fees below are examples for the receptionist. The dentist confirms the fee after the exam.

The clinic

Maple Grove Dental Clinic is at 185 Central Parkway West, Mississauga, Ontario L5B 3C9. The clinic phone is (905) 555-0148. The time zone is Eastern Time.

Patient parking is free in the lot behind the building. The lot entrance is on Central Parkway West. The level door faces the parking lot, and the reception desk is on the ground floor. A patient who is running late should call the clinic before arriving.

Hours

Monday to Thursday: 8:00 a.m. to 6:00 p.m. Friday: 8:00 a.m. to 4:00 p.m. Saturday: 9:00 a.m. to 1:00 p.m., by appointment. Sunday: closed.

The phone is answered during open hours. The desk stays covered from 12:00 p.m. to 1:00 p.m.

Dentists

Dr. Sarah Chen sees new patients, implants, crowns, and general treatment. Dr. Amrit Bhandal sees family dentistry, children’s visits, and cleanings. Dr. Michael Wong sees root canals, extractions, and emergency visits.

A patient may request a dentist. If that dentist is fully booked, offer the next open dentist and note the request on the appointment.

New patients

A new patient should arrive 15 minutes early. Ask them to bring photo identification, a health card, and any dental insurance card. The first visit is an exam and any x-rays the dentist needs. A cleaning is a separate visit unless the dentist has time the same day.

On the phone, welcome the caller to Maple Grove, confirm the address, ask which dentist they prefer, and ask whether they have dental insurance. Do not promise that a plan will pay for the visit.

Cancellation policy

Please give at least 48 hours’ notice to cancel or move an appointment. A cancellation with less than 48 hours’ notice, or a missed visit, may be charged a $75 fee. The fee is waived the first time for a new patient. It is also waived when the patient is ill or when the weather is severe. Saturday visits use the same 48 hour rule.

If someone wants to cancel inside 48 hours, offer the next open time before you mention the fee. Write the reason on the appointment.

Lateness

A patient who arrives more than 15 minutes late may be asked to rebook. If the chair is still free, the visit can continue as a shorter appointment. Do not start a long procedure when it would delay the next patient by more than 10 minutes.

Insurance and payment

The clinic can send claims directly to many Canadian dental plans. The patient pays the unpaid part on the day of the visit. Maple Grove accepts debit, Visa, Mastercard, and cash. The clinic does not offer in-house financing. A written estimate can be sent to the plan before a crown, root canal, or implant.

Do not say a service is fully covered. Say: we will send the claim, the plan decides the covered amount, and any balance is due at the visit. If the patient has no insurance, give the sample fee and say the dentist confirms it after the exam.

Sample fees

Adult recall exam and cleaning: $220. Child recall exam and cleaning: $160. New patient exam with routine x-rays: $285. Emergency exam: $150, and treatment is extra. Take-home whitening kit: $399. In-office whitening: $550. Implant consultation: no charge. Implant treatment is quoted after the exam.

A second cleaning in the same year, or gum treatment, is quoted separately. Fluoride for a child is included in the child recall fee. Whitening is cosmetic and is usually not covered by insurance.

Services

The clinic provides exams, cleanings, fillings, crowns, root canals, simple extractions, whitening, and implant consultations. Braces are not provided. Callers who ask about braces are referred to an orthodontist. Wisdom teeth that look complicated are referred to an oral surgeon. Dr. Wong removes straightforward teeth in the clinic.

Emergencies and after hours

During open hours, offer a same-day emergency exam with Dr. Michael Wong when he is in, or with the first open dentist. Ask about swelling, bleeding, a broken tooth, or pain that keeps the patient from sleeping. Swelling of the face or trouble breathing is urgent. Tell that caller to go to the nearest emergency department and not to wait for a dental chair.

After hours, the phone message says the clinic is closed and gives the on-call instructions. Follow the emergency policy and offer (905) 555-0148. Heavy bleeding, a knocked-out adult tooth, or an injury to the face should go to the emergency department when the clinic is closed.

For a knocked-out adult tooth, tell the caller to hold it by the crown, not the root, and to keep it in milk if milk is nearby. Do not scrub the tooth. If the clinic is open, ask them to come in the same day.

The receptionist cannot promise antibiotics or pain medicine. The dentist decides that at the visit. A caller may use an over-the-counter pain reliever they already take, following the package, until they are seen. Do not give a dose.

What to bring

Bring photo identification, a health card, an insurance card, a list of medicines, and the family doctor’s name if they have one. A parent or guardian comes with a child under 16. X-rays from another office can be sent ahead, but they are not required to book.

Children and pregnancy

Dr. Amrit Bhandal is the usual dentist for children. The first child visit can be a short look around the clinic. Routine visits start around age one, or when the first tooth appears. A parent stays with the child for the exam.

Routine exams and cleanings are welcome during pregnancy. X-rays are postponed unless the dentist says they are needed. Ask the patient to mention the pregnancy when booking.

Whitening, crowns, and implants

Whitening is not done on the same day as a new-patient exam. The dentist checks the gums first. Take-home whitening is $399 and in-office whitening is $550.

A crown is usually two visits about two weeks apart. A temporary crown should not be used on hard food. Implant consultations with Dr. Sarah Chen have no consultation fee. Treatment is quoted after the exam and any x-rays.

After a visit

After a cleaning, the gums can feel tender for a day. Brush gently that evening. Ask the patient to call if bleeding continues past the next day or if pain is worse after two days.

After an extraction, bite on the gauze for about 30 minutes. Avoid rinsing, spitting, and straws on that day. Soft food is fine. Avoid smoking and alcohol for 48 hours. A little oozing is expected. Ask the patient to call the clinic, or to seek urgent care, if bleeding is heavy, swelling increases after three days, or they feel unwell.

Records

Chart copies are prepared within five business days of a written request. There is no fee to send x-rays to a specialist the clinic referred. A patient who is moving can ask for records to be sent to the new office.

Questions callers often ask

How do I book a cleaning? Call (905) 555-0148. Adult recall visits are usually every six months. Some patients are asked to return every three or four months.

Do you take new patients? Yes. The first visit is an exam with Dr. Sarah Chen, Dr. Amrit Bhandal, or Dr. Michael Wong. Bring identification and any insurance card.

What is the cancellation policy? Give 48 hours' notice. Less notice, or a missed visit, may cost $75. The first late cancellation for a new patient is waived. Illness and severe weather are waived.

Do you bill insurance directly? Often yes. The patient pays the unpaid part at the visit. The plan, not the clinic, decides the covered amount.

How much is a cleaning? The sample adult recall fee is $220. The sample child recall fee is $160. A new patient exam with x-rays is $285. The dentist confirms the fee.

Are you open on Saturday? Yes, from 9:00 a.m. to 1:00 p.m., by appointment. Sunday is closed.

What if I have a toothache after hours? Call (905) 555-0148 and follow the message. Go to the emergency department for swelling, trouble breathing, bleeding that will not slow, or a face injury.

Where do I park? In the free lot behind 185 Central Parkway West. Use the level door that faces the lot.

Which dentist sees children? Dr. Amrit Bhandal. A parent stays for the exam.

Which dentist sees implants? Dr. Sarah Chen. The consultation has no fee. Treatment is quoted after the exam.

Do you offer payment plans? No. Payment is due at the visit by debit, Visa, Mastercard, or cash. A written estimate can be prepared for larger treatment.

How early should I arrive? New patients should arrive 15 minutes early. Returning patients only need a few minutes. More than 15 minutes late may mean the visit is rebooked.
